UNITY RELIEVE LENSES

Unity® Relieve Lenses help your single vision patients combat digital eye strain from device use in a unique design with the familiar feel of a single vision lens.

A 3-PRONGED APPROACH TO REDUCING EYE STRAIN

Unity Relieve provides unrestricted distance vision, a slight power boost at the bottom of the lens, and available blue light defense to reduce symptoms of digital eye strain and fatigue.

DESIGNED FOR THE PATIENT, NOT THEIR AGE

Unity Relieve is designed to be easily customized to each patient's unique visual needs rather than their age group. A personalized fit means better results and a superior patient experience.

BLUE LIGHT DEFENSE, AN ADVANTAGES

Every pair of Unity Relieve Lenses is available with TechShield® Blue, the next-generation anti-reflective coating that reduces blue light exposure, improves visual performance, and enhances cosmetic appearance.

SUPERIOR
for relief of visual
fatigue symptoms.¹

RATES 4 TO 1
among patients with digital
eye strain symptoms.²

DIGITAL EYE STRAIN BY THE NUMBERS

59% of American adults experience symptoms of digital eye strain.

2 HOURS is all it takes for symptoms of eye strain to surface.
—The Vision Council
