INTRODUCING UNITY VIA PROGRESSIVE LENSES

How can something so easy be so advanced? With your input, we've created a lens that's so intelligent that with a few, simple measurements your patients will see their best, every time.

EFFORTLESS VISION

Customized for every single one of your patients, Unity® Via gives them effortless vision from the moment they put them on.

They'll quickly adapt to the visual areas they need and transition naturally from near to far—with unsurpassed visual comfort.

EASY TO FIT

The intelligent technology of Unity Via makes it easy to fit your patients. Simply take the PD, fitting height, and position-of-wear measurements and provide this information to your lab. Unity Via's sophisticated software will do the rest.

lens 2 to 1*

WEARER FEEDBACK

“Very good vision, great close vision, easy to go back and forth between close and far fields.”

“Easy to wear, great clarity, no headaches. First time with no headache with new glasses.”

“To be a beginner using progressive lenses, it has been very easy to adapt with your lenses.”
